SUMMARY

I am a self-taught Full-Stack/MERN Developer with a strong foundation in Data Structures and Algorithms and Object-Oriented Programming. Currently pursuing a Bachelor's in Computer Science, in 7th semester I am eager to apply my skills in web development through internships and entry-level positions. With hands-on experience in frontend and backend technologies, I am dedicated to continuous learning and problem solving.

WORK EXPERIENCE

MERN Intern (10Pearls) 12/2025 - 02/2026

- Focused on Developing Full Stack App
- Mainly Focused on Integerating New Technologies for testing and using best practice for code.

Backend Developer Intern (Infinity Waves Inc)

- Focused on Backend development to solidify knowledge of RESTful APIs.
- Handled data flow and API testing

Jr MERN Stack Developer (Infinity Waves Inc)

- Built full-stack features with React, Node.js, and Express, focusing on reusable components. Worked with REST APIs, JWT auth, and Git.

Web Development Intern (DR CODERS)

- Built responsive UIs with Next.js, TypeScript, and Tailwind, integrating APIs for production-ready features.

AI / ML Engineer Intern (DevelopersHub Corporation) 11/2025 – 14 Jan 2026

- Learning data cleaning, visualization, and model training.
- Improving model performance.

Machine Learning Intern (Arch Technologies) 11/2025 – 30 Jan 2026

- Handled data preprocessing, cleaning, and feature engineering for model training.
- Built, trained, and evaluated ML models using Python (Scikit-learn, TensorFlow, PyTorch).

Artificial Intelligence (Code Alpha) 1 Dec/2025 – 30 Dec 2025

- Performed data preprocessing, cleansing, and feature extraction for training datasets.
- Developed, trained, and assessed machine learning models using Python (Scikit-learn, TensorFlow,

EDUCATION

Bachelor of Science in Computer Science

NCBA&E GPA 3.7/4.0

FSC PRE Engineering **2020-2022**

Government Islamia College Civilines Lahore

Matriculaltion (Government School Baghbanpura LHR)

KEY ACHIEVEMENTS

- Best Backend Intern Award
- Best Backend Developer At Dr Coders

PROJECTS

- Built a Nike-style e-commerce store with product listings, cart, and checkout.
- Built a full-stack e-commerce app with REST APIs and Redux state management.
- Built a blockchain-based secure voting system.

SKILLS

- JavaScript
- Python
- Problem Solving
